

Best Practices in Optimization: Multi-Campus Institutions

Presenter/Moderator: Chris Triplett, Strategic Solutions Consultant, AAIS

Webinar Reminders

- Participants will be automatically muted
- 10-15 minutes will be allocated for answering questions following the presentation
- Please submit questions through the Q & A panel within the webinar

Today's Roadmap

- A quick overview of the tool
- Building preferences as a foundation
- Using your sandbox settings
- Interpreting results/ad-hoc scheduling

Q & A

- If you haven't already submitted a question, please feel free to use the Q & A box.
- We will do our best to answer all questions posed, but know that you can always reach out to your Account Executive and Client Experience Manager if you have further questions.

Upcoming Webinars

Lead with Velocity

4/23/2019 @ 11:00 AM (CST)

Webinar Overview

Ad Astra's core value proposition is to look at the schedule as a strategic lever on campus. To that end, we are introducing degree velocity metrics and a new planner analysis type in the platform. The velocity metrics provide insight into how students are progressing towards a degree, based on course completion in their pathways, with institution-wide and student-specific data. The new planner analysis uses courses planned or prescribed through pathways to predict course demand and keep students on path towards graduation.

By focusing on the students' velocity towards a degree and measuring how fast they are progressing towards graduation, institutions have an opportunity to intervene -- providing the right resources at the right time, so students graduate faster.

May Webinar: Save the Date!

5/28/2019 @ 11:00 AM (CST)

Involvement Opportunities

Ad Astra team members are coming to a city near you! To find out which conferences/events we will be attending, you can check our website at <https://www.aais.com/conferences>
